

Christ Is Born Celebration 2013 - Women's Special

Dear Pam and Lonnie,

The Celebration was very unique. It was Christmas with a difference - meant only for women. The idea came up when a poor widow from a slum casually told us, *"The Birth of Christ was revealed to a woman first. God told her 'you will give birth to Jesus.' So why not celebrate Christmas by inviting only women."* The suggestion was profound. We thought let us give a try and experiment on it.

The invite went out to women, from high caste to low caste, in the temple town. To our surprise, the turnout was astounding. The wives of Hindu high priests, Muslim Imams, businessmen and political leaders showed up at the event on-time. Stepping out of their traditional homes, they came out boldly to listen to the message of Christ's birth. Some of them came along with their husbands! The place was full with over 1,500 women in addition to children and spouses. The Chief guest was the wife of County Judge.

As they stepped into the venue, every woman was presented with a copy of 'The Supreme of God,' the Holy Bible. They accepted it with reverence and carried it back home with dignity and respect. God's Word has taken the preeminence on the occasion. *"It is a miracle that such a meeting has taken place for women in our temple town today. Christ is truly born in our hearts,"* exclaimed the chief guest.

When God begins to work, He works in mysterious ways. People are attracted to God when He is lifted up. Their lives are touched and transformed when they read His Word. At BTN, we are connecting people to God. That's our mission.

Please pray that God would continue to build His Kingdom in the temple town.
